

Customer Success Story – Seattle Sport Sciences

CloudFronts helped Seattle Sport Sciences to integrate their financial platform across their business on the Dynamics 365 Business Central platform.

About Seattle Sport Sciences

Seattle Sport Sciences is a sports and entertainment technology company based in Washington, U.S. They create technology-based products to enhance coaching, training, and organizational decision-making. You can explore more about the client here at <https://www.seattlesportsciences.com/>

Business Challenges

The client desired to migrate from their legacy siloed accounting platforms across their entities in U.S and U.K to a single Dynamics 365 Business Central.

Solution Delivered

Upon the deep analysis, CloudFronts proceeded with the Dynamics 365 Business Central implementation. For starters, Dynamics 365 Business Central (formerly known as Dynamics NAV) is a single, end-to-end solution for managing all your core business processes mainly Finance, Supply chain, and Sales. Fundamental modules such as Accounting, Inventory, Warehousing, Purchasing, and Sales were successfully deployed at the client's end. Further, the client has also commenced an MSA agreement with CloudFronts to fulfil the minute requirements, customizations, and updates related to the ERP.

Key Technologies

1. Dynamics 365 Business Central

The CloudFronts ERP team was very professional and helpful. The team was always enthusiastic and responsive. This was something we valued very much.

– Dennis Hebert,

CFO

Post Go-live

Post-Go-live, Seattle Sport Sciences was able to report the following benefits:

1. They are now able to receive a unified, comprehensive, and modern view of their business operations under one single application, thus eliminating the stress related to the siloed systems.
2. Due to the MSA agreement, the client has ensured its commitment towards the maintenance and the customization of the ERP to cater to its changing operations.
